DATA SHEET

CD36-FITC

(Cat #5114-F100T)

MOUSE MONOCLONAL ANTIBODY ANTI HUMAN CD36, FITC CONJUGATED

Clone	10.5
Isotype	IgG2a
Immunogen	CD36-expressing recombinant vaccinia virus.
Specificity	<p>This antibody recognizes an epitope within the human CD36 domain 155-183. It has been described to completely inhibit oxLDL binding to human CD36-transfected cells ⁽³⁾. This antibody also potentiates ADP-induced platelet activation ⁽²⁾.</p> <p>CD36 (also known as platelet GpIIb, platelet GpIV and thrombospondin receptor) is expressed on platelets, megakaryocytes, monocytes, macrophages, endothelial cells and some human tumor cell lines.</p>
Application	Flow Cytometry.
Form	FITC conjugated purified immunoglobulin in PBS-BSA 0.1%, pH 7.2, liquid, 2 mL.
Size	100 tests, ready for use.
Suggested amount	20 µL / test per 10 ⁶ cells in 100 µL sample.
Preservative	Sodium azide < 0.1%.
Storage	The conjugated antibody should be stored in the dark at +2-8°C. Do not freeze.
HLDA Workshop	N/A
